1) Headphone update
Cell Tower Money \$2,987.86
205 headphones = \$2000.00

\$987.86 remaining

Suggestion: \$500 for assemblies
\$487.86 for Principal Yule's discretionary fund

Headphones are cute and soft with a woven fabric cord. Got a great deal. \$250 through Donors Choose with Real Salt Lake got us a few more. Discussed treating teachers to hand/foot massages.

2) Mid-year data review

Reviewed Dibels for the year so far. Good progress for most grades. Many new move-ins are likely the cause of some of the discrepancies in the test scores. The school is still performing above the state average. School has been focusing more on reading proficiency. Reviewed our CISP goals for the year. Our district was not meeting the goal overall. If goals were not met a loss of funding would be possible. We are on track to meet the goals and continue to focus on meeting the District goals. Discussed the path forward to achieve the goals. Reviewed student advancement reports focusing on those that moved from basic or below basic to higher levels from Fall to Winter.

Lexia has made a difference in the reading progress of Council Parents. Shared some good experiences with Lexia and the Baggie Books. Discussed alternatives to the morning Math lab. Discussed potentially creating a remote class closer to students who could use it. Sending packets home with students. Encouraging at-home programs (e.g. Reflex, Prodigy).
