From: Willow Springs and SCC  
Subject: TSSP Amendment Request

Willow Springs Elementary School would like to amend their 2021-22 TSSP in order to better serve the needs of their students.

**Reason for the proposed amendment:**

We have seen an increase in externalizing behaviors due to the covid pandemic. Fall Student Risk Screening Scale (SRSS-IE) data shows that 84% of our students fell within the Low Risk range for Externalizing behaviors. Winter SRSS-IE data shows the percentage of students in the Low Risk range for Externalizing behaviors has dropped to 78%. We feel that mindfulness tools would offer opportunities to develop sensory and emotional regulation skills in a safe environment – the classroom. In order to increase the availability of mindfulness tools over all grades, we would like to purchase Calming Kits for every classroom and specialists classrooms in the school.

**Original Goal:**

By spring of 2022, Willow Springs teachers will have given an average of 5 PRIDE Paw tickets per month as measured by a monthly tally.

**Original Allocated Expenditures:** \$0

**Proposed TSSP Goal Change:**

By Spring of 2022, 80% of students (K-5) will be in the Low Risk range of externalizing behaviors as measured by the Student Risk Screening Scale (SRSS-IE).

**Proposed Expenditure Change:**

\$5,000 to purchase supplies for Classroom Calming Kits.

**Date of the meeting the amendment was discussed and approved by the SCC:**
