Revisions to Expenditures

- Anticipated overage of approximately \$40,000 in TSSA because District is paying for Social Worker
- Plan as written provides for such a circumstance:

- “ We may use the funds to pay for professional development for our teachers to support them in reaching these goals. We may use the funds to pay for substitute teachers to allow our teachers to attend in school and outside professional development. We may use the funds to hire additional aides or teachers for the classrooms, or brain boosters. We may use the funds to purchase technology, equipment, or accessories to upgrade and enhance current computer labs, chromebook labs, and iPad labs to allow students to have more access to Reading Plus, Lexia, iReady or Dreambox, multilingual software, and other academic programs. We may update teacher technology equipment. We may use the funds to purchase additional online software for academic programs. With School Community Council and teacher discussion about technology purchases before decisions are made. We may use funds for extra field trips, assemblies, science materials, math manipulatives, books, or to pay stipends for more Building Leadership Team members.”
